SLIDING GATE OPERATOR

SNB6 SERIES

The SNB6 Series is a high-performance automatic sliding gate motor engineered for residential, commercial, and industrial applications. Designed with advanced motor control technology, it delivers smooth, reliable, and safe gate automation while ensuring long-term durability and minimal maintenance.

ADVANTAGES

- Smooth and silent operation
- Reliable heavy-duty performance
- Intelligent motor control
- Easy installation and maintenance
- High safety standards
- Long service life
- Suitable for various gate sizes and weights
- Weather-resistant outdoor design
- Energy-efficient operation
- CE & CCC certified quality

APPLICATIONS

- Residential Sliding Gates
- Commercial Complexes
- Industrial Facilities
- Warehouses
- Factories
- Apartment Entrances
- Schools & Hospitals
- Gated Communities

SLIDING GATE OPERATOR

Ultra quiet

CE Certification

Soft start & stop

Technical Data

Specification	SNB6
Input Voltage	AC220V
Maximum Gate Weight	600 kg
Maximum Torque	18 Nm
Rated Power	370 W
Protection Class	IP44
Gate Speed	12 m/min
Operating Temperature	-45°C to +65°C
Operating Noise	≤56 dB
Certification	CCC / CE
